

Industrial Vacuum cleaner

The Dynaclean industrial vacuum cleaner is equipped with a dedicated maintenance-free battery, which can last for 5 hours when it is fully charged. 700W high-power dual-channel suction motor has strong heat dissipation, and the suction is more durable and stable. 240mbar vacuum suction can absorb the bottom dirt in both wet and dry use, and the innovative multiple filter system keeps away from secondary pollution. Sturdy body, corrosion-resistant and pressure-resistant, long-term use is not easy to damage.

Product Features:

1. High quality copper core motor
2. Wet & dry more powerful
3. Layers of filtering like the air purifier
4. Thickened carbon steel barrel body

(DV-15C /30C)

(DV-C104)
